

Jackson Medical Specialists | Comprehensive Pain Management Clinic

650 E Pine St #102a, Central Point OR
97502
USA

Telefon: (360) 583-8030

Jackson Medical Specialists we are focused on medically managing weight loss. This means we believe there is much more to your weight than your habits, such as biology, comorbid conditions, environment, and genetics. The vast majority of the weight loss industry is focused solely on behavior changes for weight loss, despite proven research that shows poor success with that approach. They often leave you feeling like your weight status is due to an inability to control eating or laziness, or both.
